

The evolution of single tooth implant-supported restorations

This program will focus on patient-specific abutments and the simplicity and reliability they bring to the restorative process while allowing for functional and esthetic results for each individual patient.

Using the most advanced computer technology, patient-specific abutments are available for all major implant systems and are designed and manufactured to the clinician's specifications. The benefits of providing an anatomically correct abutment earlier in the healing cycle will be discussed.

At the completion of this course, participants will be able to:

- Discuss techniques and design of immediate and transitional temporaries.
- Understand customization of implant-level impressions.
- Integrate patient-specific abutments into any implant protocol.
- Learn the easiest and most innovative way to restore implants via a CAD/CAM custom abutment system.

Program at a glance

Date	Thursday, May 9, 2019
Time	6:00 - 6:30 pm <i>Registration and light dinner</i> 6:30 - 8:30 pm <i>Lecture presentation</i>

Dentsply Sirona Implants is committed to new and innovative knowledge, however sponsorship by Dentsply Sirona Implants does not necessarily imply endorsement of a particular philosophy, procedure or product.

Dentsply Sirona, Inc. is an ADA/CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dentsply Sirona, Inc. designates this activity for 2 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to Commission for Continuing Education Provider Recognition at ADA.org/CERP. Dentsply Sirona, Inc. is also an AGD approved PACE provider (208218) for FAGD/MAGD Credit. Acceptance period 05/2018 - 06/2021.

ADA CERP Continuing Education Recognition Program

Co-sponsored by

Featured speaker

Bridget Marron completed her Master Dental Technician (MDT) studies at NYU in October 2011. Ms. Marron graduated from Mt. Ida Junior College with an Associate's Degree in Dental Assisting and has almost 20 years of experience as a chairside dental auxiliary. She was a

Certified Dental Auxiliary (CDA) and was also certified in Radiology. While working at the Boston University Dental School, Ms. Marron was trained as an Expanded Functions Dental Auxiliary (EFDA). This training enabled her to restore patients after dental students prepped the tooth for fillings as well as repair dentures, take preliminary and final impressions and make temporaries. While at the dental school she also taught a dental materials course to the dental assisting students. Ms. Marron is currently a Technical Advisor for Dentsply Sirona Implants.

This speaker is employed by Dentsply Sirona Implants.
