ZBI Virtual Regional Study Club

Transcend traditional learning with Zimmer Biomet Dental's new ZBI Virtual Regional Study Club (VRSC) designed to fit varying learning styles of the modern clinician, dental team, and lab professional. Whether your interest is in emerging digital dentistry innovations or the latest techniques in restorative and implant dentistry with industry leading regenerative solutions, our commitment is to you and your patients. Your progress. Our promise.®

Zimmer Biomet Institute is excited to launch a new regionally based study club educational series—ZBI Virtual Regional Study Club.

This new series provides an opportunity for study club members to view numerous web-based programs selected to meet the educational interests of the group.

The Study Club will meet "virtually" on the dates/times selected for the group.

A Zimmer Biomet Representative will lead the group by launching a LIVE Web-Based Meeting. Each web-based program selected will be presented by the representative, then the program will be opened up for an engaging clinical discussion.

ADA CERP® Continuing Education Recognition Program

Brought To You By
ZIMMER BIOMET
Institute

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
